

Meet The Learning Needs of All Students

Distance Learning Courses

- University of the Pacific Accredited Partner
- Earn Graduate level Semester Credits
- Academic Credits at your own Pace
- Achieve your Education and Career Goals

What is the sensory world, and who am I in it?

There are visual learners, auditory learners, tactile learners, analytical learners, and plain old reluctant learners. Sprinkled in are students with attention deficit disorder, aspergers, autism and hyperactivity. Most of the research for neurology, psychology and education is suggesting that teachers (at all grade levels) implement more differentiated instruction.
